Presents...

Fall 2010 is here and Abrakadoodle has ALL NEW LESSONS. Join us as children discover their creativities, talents and abilities through painting, sculpture and additional creative media.

In this fall session, we will be highlighting many NEW artists, including **Paul Cezanne**, French artist, and his series of landscape paintings of Mont Sainte-Victoire from 1902-1904 as well as current food stylist from Washington DC, **Lisa Cherkasky**, who is involved in the art of making food look delectable for photographs and displays.

All skill levels are welcome in Abrakadoodle—not just the future artists among us. Classes bolster self-confidence and pride, while teaching art history, techniques, vocabulary, and socialization skills.
