

# Digital Design Lab 1

## School Enrichment Program

In the Digital Design Lab, students will learn how to turn their photos into digital creations by using StoryBook 3.0 Software to design a 20-page, 8 x 8 hardcover Photobook and a Mug. With this simple software and fun digital artwork to work with, each student will be able to create a custom masterpiece that fits his or her personal style.

The fee includes personal use of a computer, the exclusive software and the professional printing of the completed photo book. Classes will be taught by Creative Memories Consultant, Jacqueline Carey who specializes in training people of all ages to create digital photo books. Your school will receive 10% donated back to your PTA/PTO.

3<sup>rd</sup>, 4<sup>th</sup> and 5<sup>th</sup> Graders

\$125 fee / 1 class per week

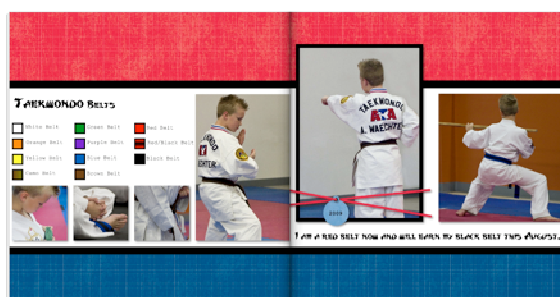

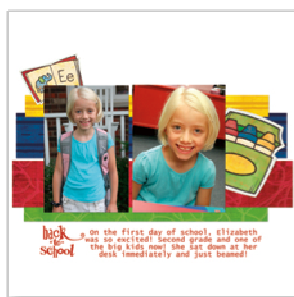

October 4–November 8 (6 wks)

Monday's from 4:00-5:00 p.m.

**Only 10 spots per class!**

The students who complete Digital Design Lab 1 can enroll in Digital Design Lab 2 next Spring, where they will learn more advanced design techniques. They will choose from a variety of design projects including another 8 x 8 Photo Book or Calendar, Posters or T-shirt and a Mouse Pad.

Materials: Students must bring up to 75 photos on a 4GB flash-drive to the first class.
